### **DETAILED ACTION**

1. Applicant's arguments and amendments have been fully and carefully considered. Claims 10 and 11 are pending. Regarding applicant's statement that "...Applicant hereby incorporated by references its remarks from the prosecution history of the parent application so as to more fully explain herein how its sauce differs from the prior art." Is not a proper incorporation. Applicant can incorporate by reference co-pending applications, articles and patents, but the arguments presented in a co-pending application cannot be incorporated unless applicant re-iterates the arguments presents the arguments in the pending application.
2. Regarding applicant's statement that a Terminal Disclaimer will be provided after a Notice of Allowance is issued. In order for the instant application to issue a Terminal Disclaimer has to be provided prior to Allowance. All issues regarding the application has to be resolved before the examiner can issue the Notice of Allowance because when the examiner allows a case the prosecution on the merits is closed.
3. Claims 10 and 11 are free of the prior art as the prior art fails to teach and or suggest an alimentary sauce which comprises at least 40% balsamic vinegar of Modena and a basic preparation containing thickening agent and sugar the basic preparation comprise lactose, dehydrated glucose syrup, maltodextrin, modified starch and xanthan gum.
4. Regarding applicant's request for the examiner to call if there are any issues which present an impediment, the examiner would have called applicant to obtain a Terminal Disclaimer however with the new IFW processing, a faxed Terminal Disclaimer

to the examiner is not acceptable, so that the examiner can have the Terminal Disclaimer reviewed and scanned. The Terminal Disclaimers must be scanned first then reviewed by PTO paralegals and then it will become available to the examiner. Since there was time involved, the examiner thought best to give applicant time to prepare the Terminal Disclaimer and just use regular amendment practice as the rate-limiting step is the IFW processing steps and scanning. The examiner apologizes for an inconvenience to applicant.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
